Objective

Motivated and detail-oriented IT student with hands-on experience in mobile and desktop application development. Passionate about creating impactful tools using modern technologies. Seeking opportunities to contribute to real-world products and expand practical experience.

Education

Thakur college of engineering & Technology - B.E in Computer Engineering (**Pursuing**)

Government Polytechnic Mumbai

AFAC English School

Diploma in Information Technology (2022 – 2025) **93%**

SSC | 2021 – 2022 | **92.40%**

Technical Skills

- **Languages:** Java, Python, C, C#, Kotlin
- **Web Technologies:** HTML, CSS, JavaScript
- **Mobile App Development:** Flutter, React Native, Android (Java/Kotlin)
- **Backend & Databases:** Springboot, Firebase, MySQL, SQLite
- **Tools & Concepts:** Git, OOP, GUI, Socket Programming, Multithreading

Experience

Web & App Developer Intern / January 2025 – May 2025

SonyTech Plus Institute

- Developed a website for both internal and external use, demonstrating a strong understanding of modern web technologies and user experience design.
- Conducted R&D on the implementation of a GenAI-based doubt-solving bot, focusing on intelligent query resolution.
- Led the design and development of a Lead Management System, significantly improving communication flow and client interaction efficiency.

Projects

Classroom Clone App (*Android + Firebase*)

A feature-rich digital classroom app inspired by Google Classroom. Supports student/faculty login, class creation, quizzes, assignments with file upload, notes, attendance timer, and real-time chat. Built using Java with Firebase Auth, Firestore, and Storage.

Calling System Desktop App (*Flutter Windows + Firebase*)

A Windows desktop CRM tool for coaching institutes to manage leads. Admin can assign students (leads) to employees based on school or student count. Employees mark users as Interested / Not Interested with remarks. Includes login system and Firebase backend with role-based access.

Hardware Management System (*C# .NET Windows Forms*)

Inventory management app to track hardware items, update stock, and manage billing. Includes UI for customer details, billing entries, and dynamic stock update

Certifications

Java Advanced Programming – Scaler, Data Flair, Mind Luster, Udemy
(Covered Sockets, Servlets, JSP, and Multithreading)
